Aluminium laqué brillant
Aluminio lacado brillante

Le maniglie delle ante piene laccate o in decorativo legno e materico, sono disponibili per abbinamento nelle stesse finiture delle ante a telaio: alluminio spazzolato (di serie) oppure nero o bianco, in abbinamento ai telai.
In opzione è possibile avere le maniglie laccate, in contrasto oppure con lo stesso colore dell'anta.

The handles of the solid fronts - lacquered or with wooden or textured decorative details - are available in the finishes offered for the framed wings: brushed aluminium (standard) or black or white, in combination with the frames.

As an option, it is possible to have lacquered handles, in contrasting colour or in the same colour as the front.

Les poignées des façades pleines laquées ou avec éléments décoratifs bois et texturés sont disponibles dans les mêmes finitions que les portes sur cadre: aluminium brossé (de série), noir ou blanc, assorties aux cadres.
En option, il est possible d'avoir les poignées laquées, en contraste ou de la même couleur que la porte.

Las manijas de las puertas enteras, lacadas o con acabado decorativo de madera y texturizado, están disponibles para ser combinadas con los mismos acabados que las puertas de bastidor: aluminio cepillado (de serie), negro o blanco, en combinación con los bastidores.

Opcionalmente están disponibles las manijas lacadas, en contraste o del mismo color que la puerta.

I telai sono stati studiati per essere affiancati alle ante piene, sia in orizzontale (su mobili affiancati) che in verticale (nello stesso mobile).

I pannelli centrali sono in vetro temperato in tutti i colori Inda oppure in vetro Fumè. I pannelli nelle finiture HPL e GRES PORCELLANATO, proposte nelle stesse finiture dei top, consentono abbinamenti coordinati o in contrasto con i top. I telai di PROGETTO ALU sono disponibili di serie in finitura ALLUMINIO SATINATO oppure a scelta, senza sovrapprezzo, in finitura NERO o BIANCO.

The frames have been designed to be complemented by the solid wings, both horizontally (next to cabinets) and vertically (in the same cabinet).

The central panels are in tempered glass and are available in all Inda colours or in Fumè glass; the panels in the HPL and PORCELAIN STONEWARE finishes are available in the same finishes as the tops to create coordinated or contrasting combinations with the tops.

The PROGETTO ALU frames are available as standard in SATIN ALUMINIUM finish or optionally, at no extra cost, in BLACK or WHITE.

Les façades sur cadre ont été conçues pour être complètement compatibles avec les façades pleines, en combinaison aussi bien horizontale (sur des meubles côté à côté) que verticale (dans le même meuble).

Les façades sur cadre sont disponibles en verre trempé.

Les façades sur cadre en HPL, et GRÈS CÉRAME, proposés dans les mêmes finitions que les plans, permettent des combinaisons assorties ou en contraste avec les plans.

Les cadres de PROGETTO ALU sont disponibles de série en finition ALUMINIUM SATINÉ ou au choix, sans majoration de prix, en finition NOIR ou BLANC.

Los bastidores han sido diseñados para ser combinados con puertas enteras, tanto en sentido horizontal (en muebles yuxtapuestos), como en sentido vertical (en el mismo mueble).

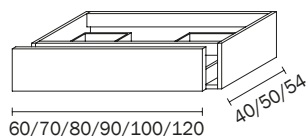

Los paneles centrales son de vidrio templado en todos los colores de Inda o de vidrio Fumè; los paneles con acabado de HPL y GRES PORCELÁNICO, propuestos con los mismos acabados que las encimeras, permiten combinaciones coordinadas o en contraste con estas últimas.

Los bastidores de PROGETTO ALU están disponibles de serie con acabado de ALUMINIO SATINADO o —a elección, sin recargo— con acabado NEGRO o BLANCO.
