- Colle polyuréthane ou MS polymère
- Polyurethaan of MS-polymeer lijm
- Polyurethan-Klebstoff oder MS-Polymer
- Pegamento poliuretano o polímero MS
- Colla poliuretanică o MS polimer

Ⓢ D'éventuelles irrégularités de surface sur le dessous de votre receveur n'empêchent pas une installation conforme aux préconisations de pose. La colle (type polyuréthane ou MS polymère) comblera facilement ces manques lors du collage.

Ⓢ Any surface irregularities on the underside of the shower tray have no influence on the installation according to the installation recommendations. The adhesive (polyurethane or MS polymer) compensates for these unevenness when bonding the feet off without any problems.

Ⓢ Posibles irregularidades de la superficie en la parte inferior del receptor no impida la instalación de acuerdo con las recomendaciones de instalación. El adhesivo (tipo poliuretano o polímero MS) rellenará fácilmente estos huecos al pegar los pies.

Ⓢ Eventuali irregolarità della superficie nella parte sotto della doccia non impediscono l'installazione in base alle raccomandazioni di montaggio. La colla (tipo poliuretano o MS polimero) riempirà facilmente queste lacuna quando si incollano i piedini.

Ⓢ Eventuele onregelmatigheden in de vlakke onderzijde van uw douchebak vormen geen belemmering voor een installatie conform aan de gestelde richtlijnen. De lijm (type polyurethaan of MS-polymeer) vult eventuele openingen makkelijk op tijdens het lijmen.

Ⓢ Eventuelle Unregelmäßigkeiten der Oberfläche an der Unterseite Ihrer Duschwanne haben keinen Einfluss auf die Installation gemäß den Einbauempfehlungen. Der Klebstoff (Typs Polyurethan oder MS-Polymer) gleicht diese Unebenheiten beim Verkleben problemlos aus.

Ⓢ Aspirer le dessous de votre receveur avant la pose

Ⓢ Vacuum the bottom of the shower tray before installation

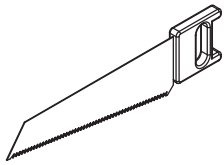

Ⓢ Aspirar la parte inferior de su plato de ducha antes de instalarlo

Ⓢ Aspirare la parte sottostante del piatto doccia prima dell'installazione

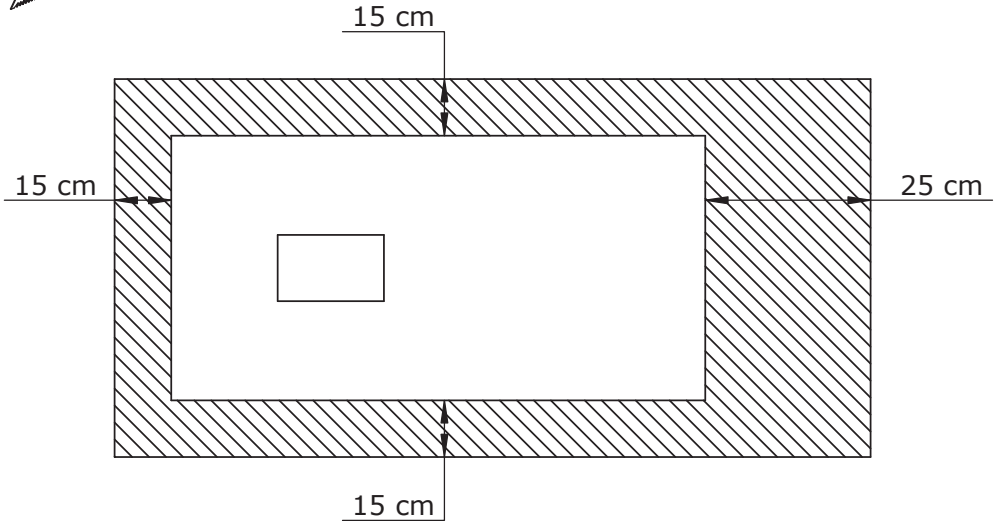

Ⓢ Stofzuig de bodem van de douchebak voor de installatie

Ⓢ Saugen Sie den Boden der Duschwanne vor der Installation ab

- F Découpe optionnelle du receveur
- GB Optional cutting of the receiver
- E Corte opcional del receptor
- I Taglio opzionale del ricevitore
- NL Optioneel snijden van de ontvanger
- D Optionales Schneiden des Empfängers

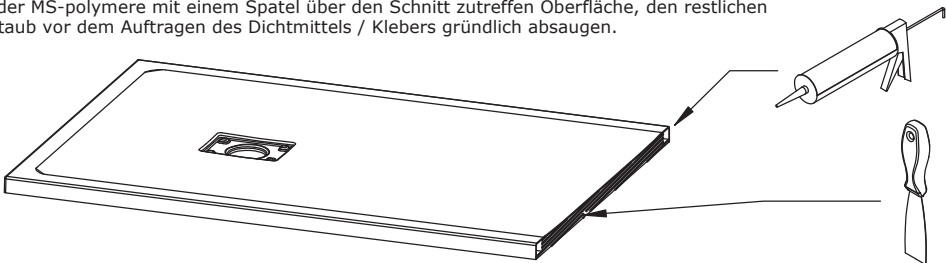

- Zone maxi découpable (Découpe possible sur maximum 3 des 4 côtés du receveur)
- Maxi cuttable area (Cutout possible on a maximum of 3 of the 4 sides of the tray)
- Área de corte maxi (corte posible en un máximo de 3 de los 4 lados de la bandeja)
- Maxi superficie tagliabile (Ritaglio possibile su un massimo di 3 dei 4 lati del vassoio)
- Maximaal snijgebied (maximaal 3 van de 4 zijden van de lade kunnen worden gesneden)
- Maximaler Schneidbereich (Ausschnitt auf maximal 3 der 4 Seiten des Trays möglich)

- Si vous avez découpé votre receveur, vous devez appliquer une couche de colle polyuréthane ou MS polymère à l'aide d'une spatule sur la surface coupée, bien aspirer les poussières résiduelles sur la tranche du receveur avant d'appliquer le mastic/colle.
- If you cut your shower tray you must apply a polyurethan adhesive or MS polymer layer using a spatula over the cut surface.
- Si ha recortado el plato, debe aplicar una capa de pegamento poliuretano o polímero MS en la superficie recortada. Puede ayudarse de una espátula, Aspirar el polvo residual en el lateral del plato antes de aplicar el pegamento.

- Se avete tagliato il vostro piatto, dovete applicare della colla poliuretanic o MS polimero con l'aiuto di una spatola sul lato tagliato, Aspirare accuratamente la polvere residua sul bordo del piatto prima di applicare il sigillante/adesivo.
- Wanneer u uw douchebak heeft bijgesneden dient u met een spatel een laag polyuretaan lijm of MS polymeer op de rand het afgesneden deel aan te brengen, verwijder de overgebleven stof- en kunststofdeeltjes op de douchebak voordat de lijm wordt aangebracht.
- Wenn Sie Ihre Duschwanne schneiden müssen Sie ein Polyurethan-Klebstoff-Schicht oder MS-polymere mit einem Spatel über den Schnitt zutreffen Oberfläche, den restlichen Staub vor dem Auftragen des Dichtmittels / Klebers gründlich absaugen.

Tracer la position de la bonde et réaliser un montage à blanc de la bonde et du receveur

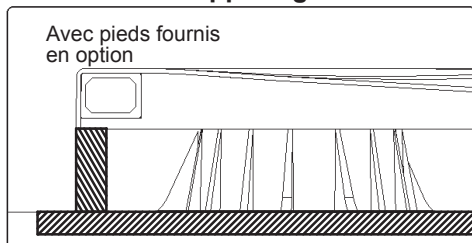

- ① - silicone de finition traité antifongique de 5mm de largeur minimum
- ② - silicone d'étanchéité souple traité antifongique
- ③ - élément de soutien du joint silicone
- ④ - silicone d'appui

Il est indispensable d'avoir un support imputrescible sur tous les côtés du receveur.

**Supportage du fond**

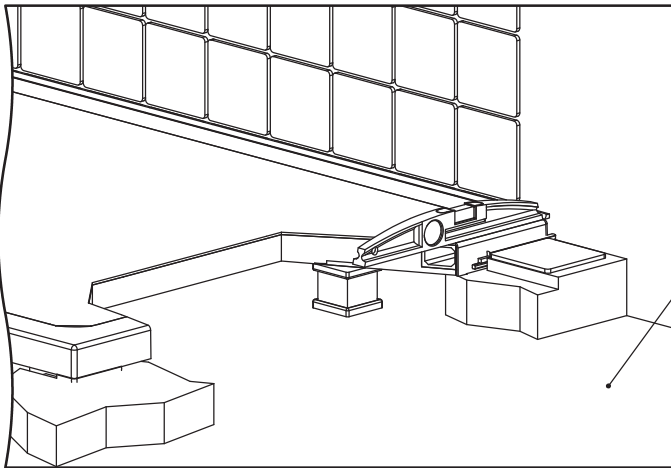

Pendant toute la durée des travaux, protéger le receveur contre toute agression : brûlures, chocs, rayures, décapants...

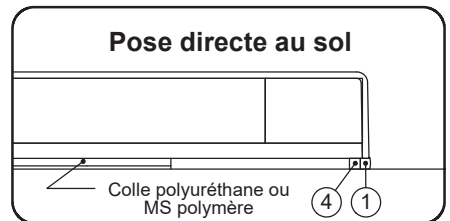

Le montage d'une *soupape anti-vide* est nécessaire pour une utilisation optimale si un autre appareil sanitaire est raccordé sur la même évacuation.

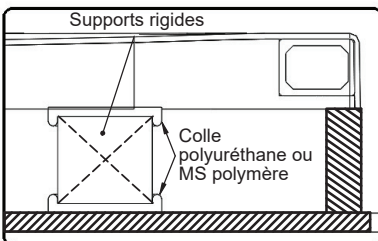

Sol rigide et non humide indispensable.

Ne pas poser sur plancher chauffant.

# KINESURF POSSIBLE TYPES OF INSTALLATIONS

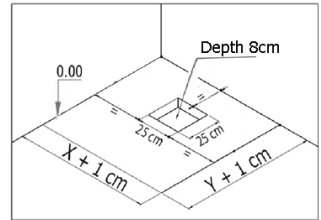

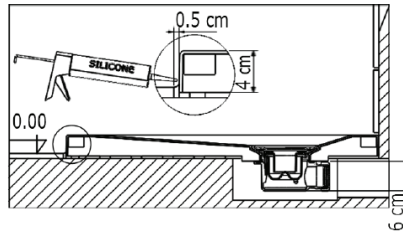

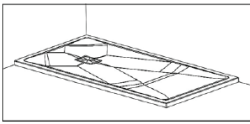

## 1. Mounted on adjustable legs with tiled cladding

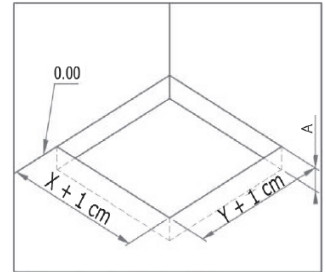

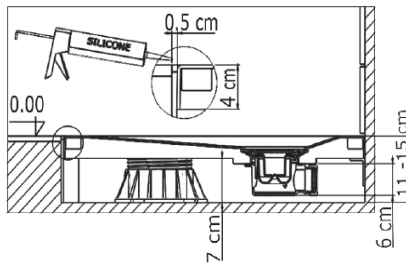

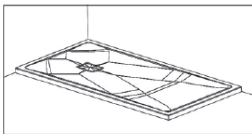

Preparation of the implementation

## 2. Installed on tiles

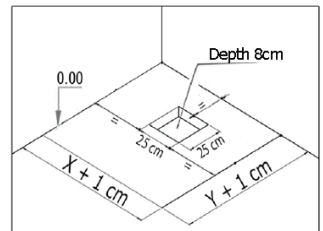

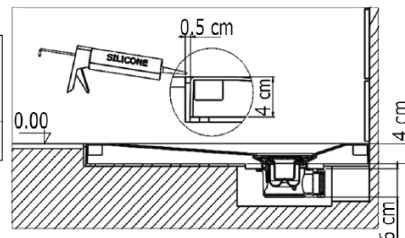

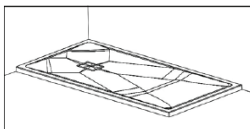

Preparation of the implementation

## 3. Built-in and placed on adjustable legs

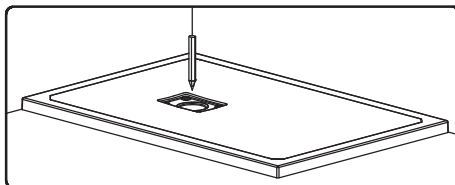

Preparation of the implementation

## 4. Built-in and installed without adjustable feet

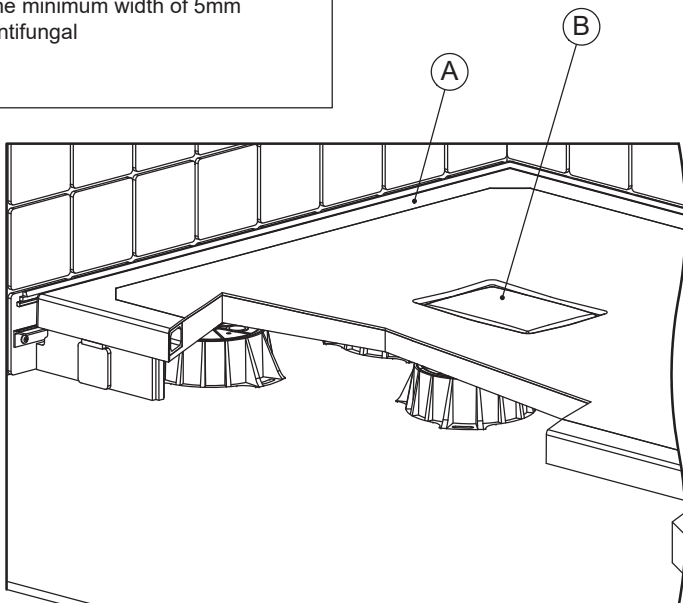

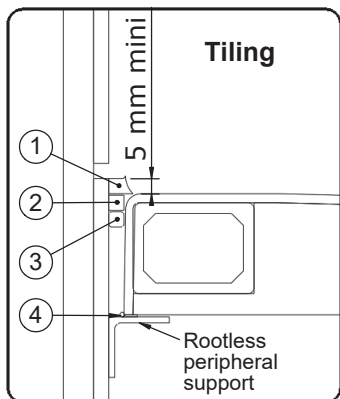

Preparation of the implementation

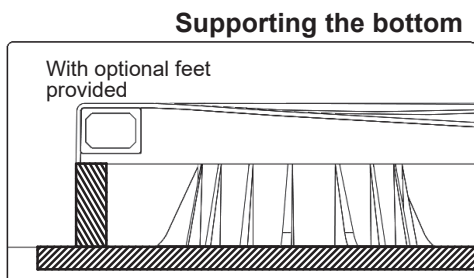

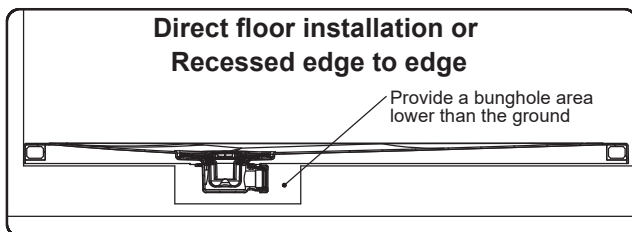

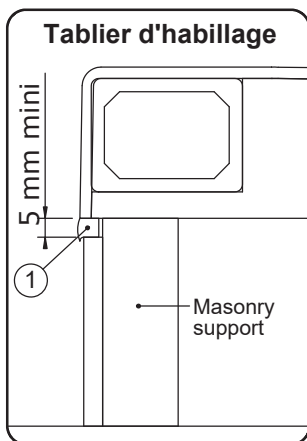

Mark the position of the plug and perform a White mounting the bung and recipient

- ① - finishing antifungal treated silicone minimum width of 5mm
- ② - flexible sealing silicone treated antifungal
- ③ - support Element silicone seal
- ④ - silicone support

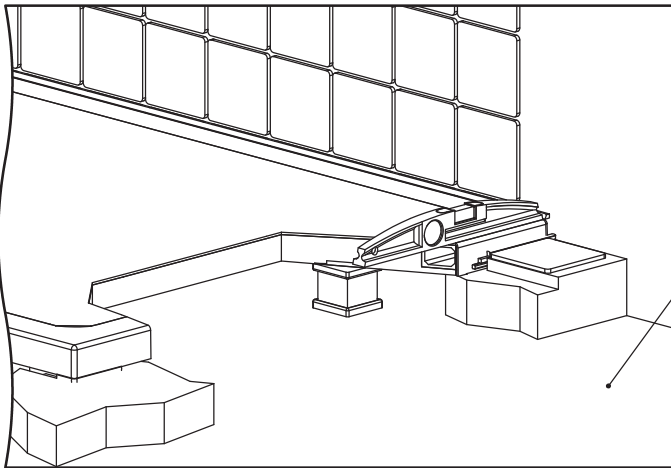

It's essential to have a rigid support on all sides of the shower tray

The installation of an anti-evacuation valve is necessary for optimum use if another sanitary appliance is connected to the same evacuation

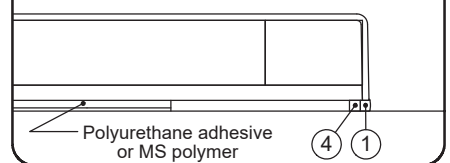

Throughout the duration of the work, protect the recipient against any aggression : burns, shock, scratches, strippers...

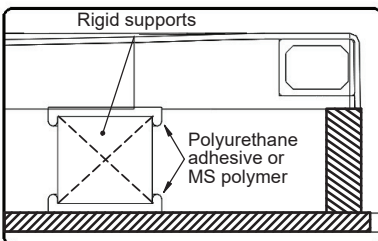

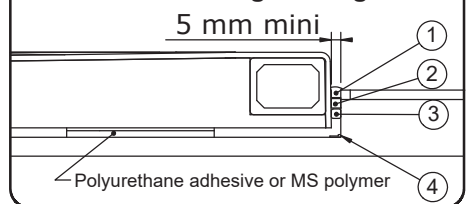

The underlying floor must absolutely be rigid and dry / Ensure a solid dry surface

Do not place on underfloor heating.

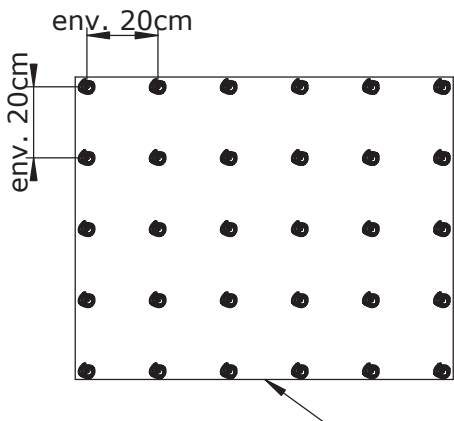

### Direct floor installation

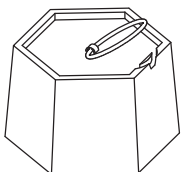

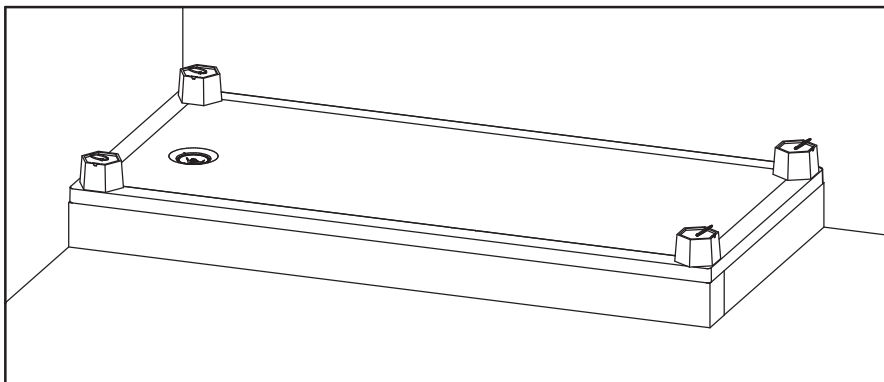

### Recessed edge to edge

Marcar la ubicación del desagüe y presentar el plato para verificar que esté todo correcto.

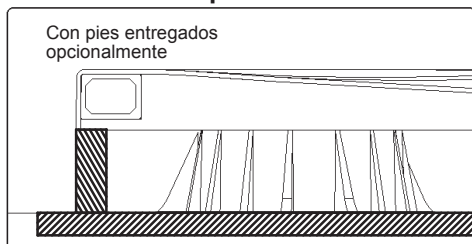

- ① - silicona de acabado, antifúngica, 5 mm de anchura mínimo
- ② - silicona de estanqueidad blanda antifúngica
- ③ - elemento de soporte de la junta de silicona
- ④ - silicona de apoyo

Es imprescindible instalar un soporte imputrescible en todos los lados del plato.

### Soportes inferiores

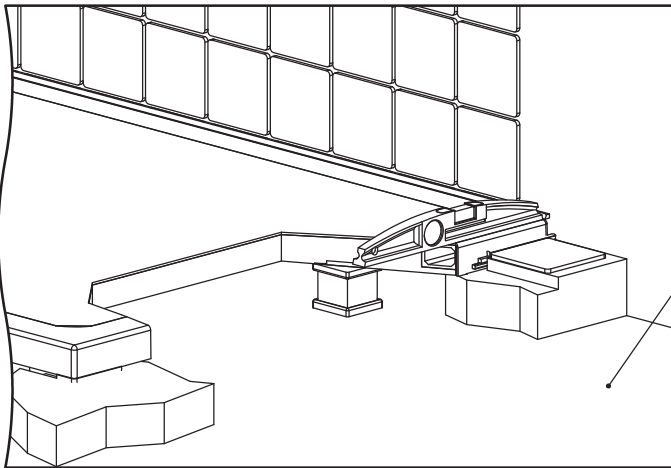

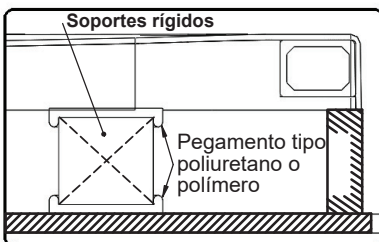

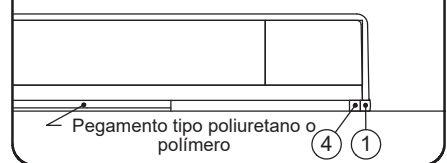

La instalación de una válvula de compensación es necesaria para un uso óptimo, en caso de conectar otro aparato al desagüe del plato.

Durante las obras, proteger el plato de ducha de posibles daños como quemaduras, choques, arañazos...

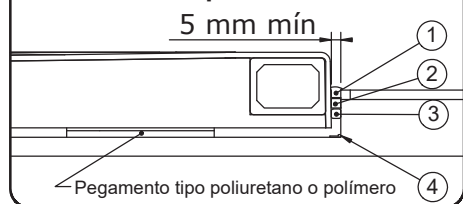

Imprescindible: suelo rígido y sin humedades

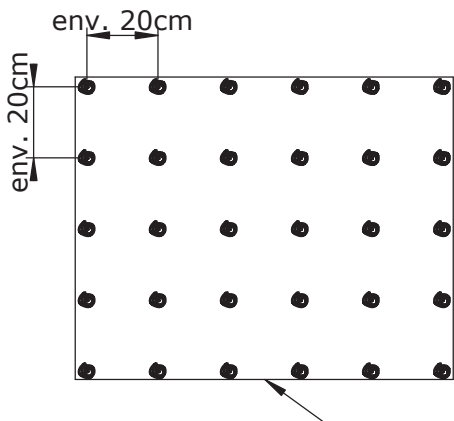

### Instalación directa al suelo

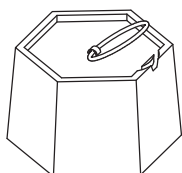

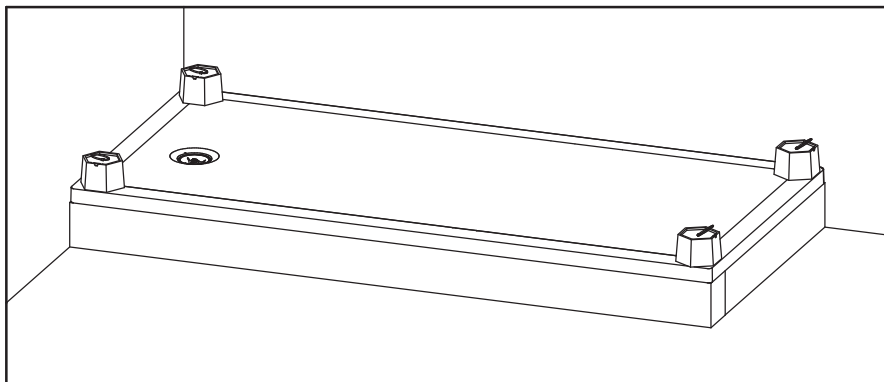

### Instalación empotrado en el suelo

NL

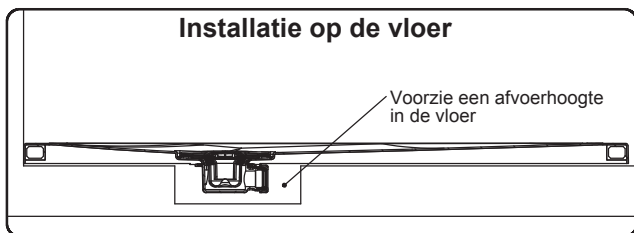

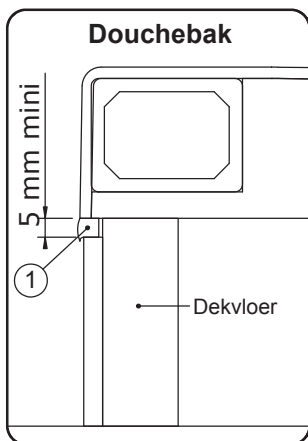

Markeer de positie van de afvoer en bepaal de plaats van de afvoer en de douchebak

- ① - Schimmelwerende siliconenkit met een lengte van minimaal 5mm
- ② - Siliconenkit voor een waterdichte afwerking, met schimmelwerende werking
- ③ - Steunelement van silicone pakking
- ④ - Siliconen ondersteuning

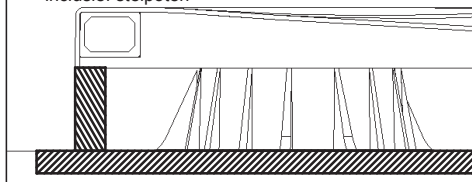

Breng een schimmelwerende afdichting aan, langs alle zijden van de douchebak.

### Versterking van de ondergrond

Optioneel geleverd inclusief stelpoten

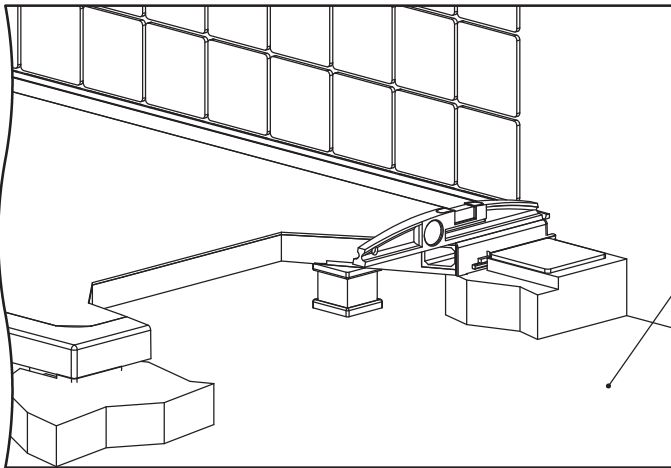

Bescherm de douchebak tijdens de werkzaamheden tegen brand, schokken, krassen etc.

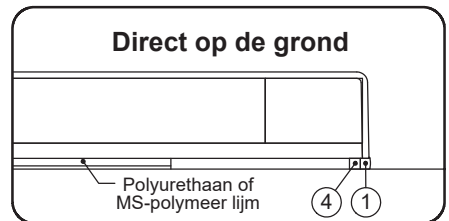

Voor een optimaal gebruik is de montage van een terugslagklep is noodzakelijk indien een ander sanitair toestel wordt aangesloten op dezelfde afvoer.

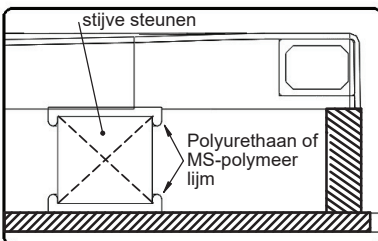

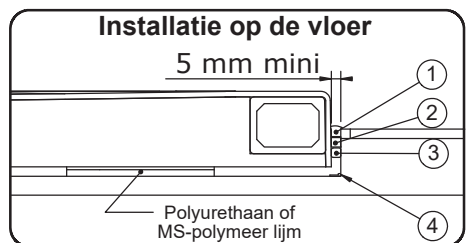

De ondergrond moet volkomen vlak en droog zijn

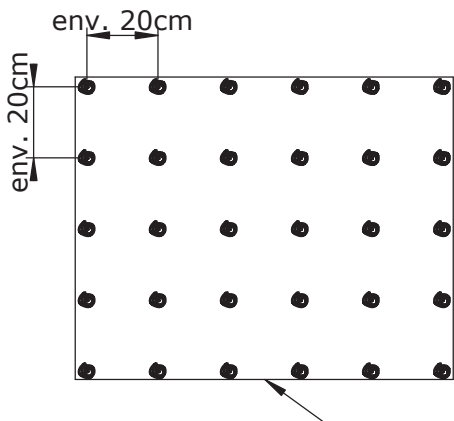

### Direct op de grond

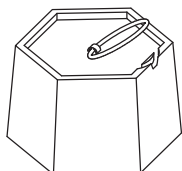

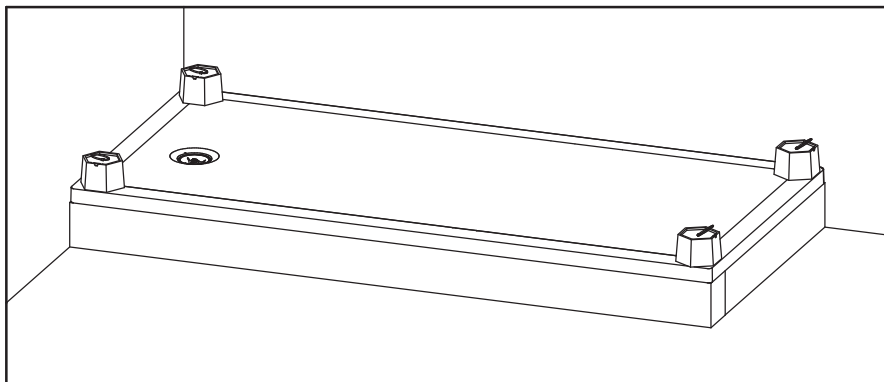

### Installatie op de vloer
