- Les quantités données sont les quantités utiles au montage. Les sachets fournis contiennent des pièces supplémentaires.
- The parts provided are as required for the installation, however, there may be surplus parts in the package.
- De aangegeven aantallen zijn bestemd voor de montage. De bijgeleverde zakjes bevatten extra onderdelen.
- Die Mengenangaben beziehen sich auf die für die Montage nötigen Teile. Eventuell weitere beige packte Teile ignorieren.

- **F** Matériel nécessaire
 ● **F** Tools required
 ● **NL** Benodigd gereedschap
 ● **D** Benötigtes Werkzeug

Utiliser un silicone adapté au matériau de chaque support (faïence, acrylique, etc.)

Use a silicone sealant that is suitable for the surrounding materials (ceramic, acrylic, etc)

Gebruik siliconenkit die geschikt is voor iedere ondergrond (tegelwerk, acryl, etc.)

Für das jeweilige Trägermaterial (Stein, Acryl usw.) geeignetes Silikon verwenden

ⓘ D'éventuelles irrégularités de surface sur le dessous de votre receveur n'empêchent pas une installation conforme aux préconisations de pose. La colle (type polyuréthane ou MS polymère) comblera facilement ces manques lors du collage.

ⓘ Any surface irregularities on the underside of the shower tray will have no impact on the installation if installed using the recommended guidelines. The adhesive (polyurethane or MS polymer) compensates for any unevenness when bonding.

ⓘ Eventuele onregelmatigheden in de vlakke onderzijde van uw douchebak vormen geen belemmering voor een installatie conform aan de gestelde richtlijnen. De lijm (type polyurethaan of MS-polymeer) vult eventuele openingen makkelijk op tijdens het lijmen.

ⓘ Eventuelle Unregelmäßigkeiten der Oberfläche an der Unterseite Ihrer Duschwanne haben keinen Einfluss auf die Installation gemäß den Einbauempfehlungen. Der Klebstoff (Typs Polyurethan oder MS-Polymer) gleicht diese Unebenheiten beim Verkleben problemlos aus.

ⓘ Aspirer le dessous de votre receveur avant la pose

ⓘ Vacuum the bottom of the shower tray before installation

ⓘ Stofzuig de bodem van de douchebak voor de installatie

ⓘ Saugen Sie den Boden der Duschwanne vor der Installation ab

F

Tracer la position de la bonde et réaliser un montage à blanc de la bonde et du receveur

Le receveur ne doit subir aucune modification (sciage, meulage de renfort...) autre que celles prévues par le fabricant.

- ① - silicone de finition traité antifongique de 5mm de largeur minimum
- ② - silicone d'étanchéité souple traité antifongique
- ③ - élément de soutien du joint silicone
- ④ - silicone d'appui

Il est indispensable d'avoir un support imputrescible sur tous les côtés du receveur.

Pose directe au sol ou encastrement bord à bord

Prévoir une zone de bonde plus basse que le sol

Supportage du fond

Avec pieds fournis en option

Pendant toute la durée des travaux, protéger le receveur contre toute agression : brûlures, chocs, rayures, décapants...

Le montage d'une *soupape anti-vide* est nécessaire pour une utilisation optimale si un autre appareil sanitaire est raccordé sur la même évacuation.

Pose directe au sol

Encastrement bord à bord

Supports rigides

Mark the position of the waste and
mount the waste in the tray

The shower tray must
not be modified in any
way e.g. by cutting,
reinforcement,
grinding etc

- ① - finishing antifungal treated silicone
minimum width of 5mm
- ② - flexible sealing, antifungal
treated silicone
- ③ - support Element silicone seal
- ④ - silicone support

It is essential to have a rigid
support on all sides of the
shower tray.

Direct floor installation or Recessed edge to edge

Provide a waste cavity
below floor level

Supporting the bottom

With optional feet
provided

During the installation work, please protect the tray from scratches, heat, shock or aggressive chemicals.

It may be necessary to add an anti-siphon valve if it is connected to any other sanitary devices.

The underlying floor must absolutely be rigid and dry

Direct floor installation

Recessed edge to edge

NL

Markeer de positie van de afvoer en bepaal de plaats van de afvoer en de douchebak

Voer geen aanpassingen uit aan de douchebak die niet zijn voorzien door de fabrikant (zagen, slijpen)

- ① - Schimmelwerende siliconenkit met een lengte van minimaal 5mm
- ② - Siliconenkit voor een waterdichte afwerking, met schimmelwerende werking
- ③ - Steunelement van silicone pakking
- ④ - Siliconen ondersteuning

Breng een schimmelwerende afdichting aan, langs alle zijden van de douchebak.

Installatie op de vloer

Voorzie een afvoerhoogte in de vloer

Versteviging van de ondergrond

Optioneel geleverd inclusief stelpoten

Bescherm de douchebak tijdens de werkzaamheden tegen brand, schokken, krassen etc.

Voor een optimaal gebruik is de montage van een terugslagklep noodzakelijk indien een ander sanitair toestel wordt aangesloten op dezelfde afvoer.

De ondergrond moet volkomen vlak en droog zijn

Direct op de grond
